

Assignment L.C or L.W.C

8th Class

Tabular View

Graphical view

<input type="text"/>	<input type="text"/>
<input type="text" value="mike"/>	<input type="text"/>
<input type="text"/>	<input type="text" value="smith"/>
<input type="text"/>	<input type="text"/>

S.no	Roll No	Name	Action
1	1	mike	+ 
2	2	smith	

Objective:

A modern school purchased a salesforce org. A user with a system admin permission wants to see the seating arrangement at a glance. The homeroom teacher will update the seating arrangement.

Features:

- There will be a drop-down list from where users can select the class.
- There will be two checkboxes.
Tabular view
Graphical view
- Users have the option to select any checkbox or both.
- Create the required objects.
- If a user selects a Tabular view checkbox table will render.
- If a user selects a Graphical view we have to create a graphical view.
- Users can define the row present in class.

- **Homeroom can assign a desk to the student by clicking the “+” button and then clicking on the desk.**
- **Also, have the functionality to delete the assignment of the desk by clicking on the delete button.**
- **If a student scored less than 75 percent, the desk color would be in red.**
- **If a student scores more than 75 percent, the desk color will be green.**
- **Unassigned desks have a white color.**
- **Graphical views will be created dynamically.**
